Daily-SEE Engle M. M. MURDOCK, Editor.

OKLAHOMA'S OIL FIELD PROMISING.

There has never been oil or gas of consequence found known as the Flint Hills. But at several points west mobs to create trouble." of that line borings are now being made. Sea-level west of that line is down to from 1,300 to 2,000 feet, and oil and gas are both found below sea-level, ordinarily. Topeka is getting ready to go down with a drill. Topeka is only about 800 or 300 feet above sea-level or a possi- ington, whose death was an international loss, when ble Trenton stone formation. But in Oklahoma far west he said that "he had done more than any other one man of the meridian line mentioned oil and gas have been to coment the union of the two great Anglo-Saxon counfound. W. M. Stephenson, of Waco, Texas, who has been indications of the time." His government, to our saimaking a survey of the oil and gas fields in the Indian infaction, retained him in its diplomatic service several and Oklahoma Territories, says that when fully devel- years after he had reached the usual age of retirement. oped Greer county will prove to be the largest oil pro. He negotiated an uncommon number of important Amerducing field in the world, not excepting Beaumont. We ican-British treaties, during his thirtsen years of resido not know who Stephenson is, or what his opinion is Bering Sea confreversy, the Venezuelan Boundary disworth, but this is very strong language. Greer county pute, a permanent tribunal of arbitration which was deis the county which Oklahoma gained from Texas. Man-feated in the Senate, and the Isthmian Canal trenty. gum, the county seat, is reached by the Rock Island rallpale into insignificance. This statement is based on a belonged or Mr. Herbert belongs? well known cause the gas pressure. It is the natural pressure of gas at Beaumont which makes the wells "gush." The puddles of water on Spindle Top were constantly bubbling with escaping gas; at Sour Lake the volumes per day of the work of the bureau on the subwater is bubbling and in one place actually boils (with jects of population, manufactures, vital statistics and escaping gas) until the water is raised fully one-half agriculture. inch above the surface. Mr. Stephenson says that he has studied the gas indications very closely; and as he feat ever accomplished within a like time, allowance has spent days at Sour Lake and Beaumont watching of less than twenty-four months for securing the facts and experimenting with the gas, he feels competent to and the record of the results. judge, and says that he is actually afraid to say what During the operation of the work there were 215,000, the consequences will be when the first well is drilled | 000 cards punched for use in the tabulating machines, in the gas fields that he has witnessed in Greer county. The escaping gas as it comes through the water forces pressure is any criterion then the casing will be shot bring the total of the twelfth census to 59,373. The total clear out of the hole and stuck in the moon, E. W. Thompson, assistant general passenger agent of the Rock Island, says that the information in regard to the extent of the oil supply at Granite has not been over- the death rate per thousand officers in the South African

KANSAS REPUBLICAN POPULISTS.

Kansas drew most of its members from the Republicans, of peace. This is how it happened that the Republicans, who gave an 80,000 plurality to Harrison in 1888 in Kansas, lost that state in 1902, when Weaver, the Populist candidute, carried by a margin of almost 6,000.

ulists altogether and get back to the Republican side.

"In any case, the chances of a Republican victory in to pay for the property. Kansas in 1962 are good. Since the revolt in the Popprosperity, throughout the nation, which is shared in an eminent degree by the people of Kansas is one of the reasons why that state is likely to be carried by the Republicans in the cauvass just opened. Another reason is that the Republicans have given the state a wise and accompanied. ulist party, however, there has been no possibility for wise and economical government. The drift all over the West is decidedly to the Republican side, and, of greatly in that state. The result of the election this or two to say about it. year will show that Kansus has broken forever with the Democrats and Populists, severally and collectively."

GENERAL FITZHUGH LEE ON CUBA.

General Lee, who was so long and so closely identified declared on Monday last, in New York City, that unless judgment the Republican party agrees to carry out the Reciprocity policy of President Roosevelt with regard to Cuba anarchy will take the place of order, followed by inter to do it. ference by the United States and appointion. "United relief is afforded," said General Lee, "the worst results may be anticipated. Idleness, accompanied by extreme ness. Like South, we don't believe our navy needs it. poverty, already exists, and this can only lead in the present apsettled state of the government to discrete, developing into anarchy, and the entire-failure of the experiment which the United States has made in the entablishment of the Cuban Republic. There is no direct forgot the server and cheered the name of Rossevelt. taxation in Cuba. The revenues are almost wholly derived from customs, and the revenue from that some during American occupation was very great. But since lowa corn, unlike Kansas corn, can be drowned. our withdrawal merchants in the United States are being confidence in the ultimate success of the experiment of minimal is a reluke to the Penama hat nonsense. Cuban self-government and are declining to ship merchandise to Cuban ports on the ground that in case of trouble mobs may destroy and plunder the property. I it is probably raining in Subara. have observed, also," continued General Los, "that the negroes os the islands are getting more or less discontented, claiming that they have not had their proper share of the spoils. This is significant of trouble.

"If Cuba fails to find a market for her two great Edward did.

products-sugar and tobacco-no remunerative results will ensue from the sale of the sugar now on hand, many persons will be prevented from planting another crop for another year.

"In my opinion if we do not grant the Cubans Reciprocity the number of unemployed laborers in the Island will be greatly increased. That means discontent among in Kansas west of the line of the Ozark spur, familiarly a class of people which can easily be moulded into

ILLUSTRATIVE OF THE ENGLISH DIPLOMATIC SERVICE.

It was very unusual praise that Lord Salisbury gave Lord Pauncefote, the late British Ambassador at Washtries-which is one of the healthlest and most promising dence at Wazhington, covering such subjects as the

His successor, the Hon. Michael Henry Herbert, has Granite, where the boring operations are being had an unusual career even for a British diplomatist. See how wide his experience has been from the more pushed, is near the north line of Greer, and about 190 enumeration of the posts that he has filled during the miles due southwest from the city of Wichita. Steph- last fourteen years, and he is now only forty-five years he enson reports that at Granite, Greer county, a reason- old. He was charge d'affaires at Washington from 1888 able show of oil had been struck at one hundred and to 1883. He was secretary to the legation at Washingseven feet which would pump twenty barrels per day. ton from 1892 to 1893; at The Hague, 1893 to 1894; Constantinople, 1894 to 1897; Rome, 1897 to 1898; In 1898 This oil is very heavy and suitable for lubrication. Mr. he was appointed secretary to the British embassy at Stephenson says that he used it on his buggy just as Paris; and he now comes as Ambassador to the United any other axle oil is used, and that it was a perfect lubri- States, the more appropriately because also of his warcant. It is well known that sait and sulphur are found riage to an American lady, a daughter of Mr. R. T. in every oil field. This belt is literally charged with Wilson, of New York.
